**Tangled Up in Blue** Rosa Brooks, 2021-02-09 Named one of the best nonfiction books of the year by The Washington Post Tangled Up in Blue is a wonderfully insightful book that provides a lens to critically analyze urban policing and a road map for how our most dispossessed citizens may better relate to those sworn to protect and serve The Washington Post Remarkable Brooks has produced an engaging page turner that also outlines many broadly applicable lessons and sensible policy reforms Foreign Affairs Journalist and law professor Rosa Brooks goes beyond the blue wall of silence in this radical inside examination of American policing In her forties with two children a spouse a dog a mortgage and a full time job as a tenured law professor at Georgetown University Rosa Brooks decided to become a cop A liberal academic and journalist with an enduring interest in law s troubled relationship with violence Brooks wanted the kind of insider experience that would help her understand how police officers make sense of their world and whether that world can be changed In 2015 against the advice of everyone she knew she applied to become a sworn armed reserve police officer with the Washington DC Metropolitan Police Department Then as now police violence was constantly in the news The Black Lives Matter movement was gaining momentum protests wracked America s cities and each day brought more stories of cruel corrupt cops police violence and the racial disparities that mar our criminal justice system Lines were being drawn and people were taking sides But as Brooks made her way through the police academy and began work as a patrol officer in the poorest most crime ridden neighborhoods of the nation s capital she found a reality far more complex than the headlines suggested In Tangled Up in Blue Brooks recounts her experiences inside the usually closed world of policing From street shootings and domestic violence calls to the behind the scenes police work during Donald Trump s 2016 presidential inauguration Brooks presents a revelatory account of what it s like inside the blue wall of silence She issues an urgent call for new laws and institutions and argues that in a nation increasingly divided by race class ethnicity geography and ideology a truly transformative approach to policing requires us to move beyond sound bites slogans and stereotypes An explosive and groundbreaking investigation Tangled Up in Blue complicates matters rather than simplifies them and gives pause both to those who think police can do no wrong and those who think they can do no right

**Social Acceleration** Hartmut Rosa,2013-05-14 Hartmut Rosa advances an account of the temporal structure of society from the perspective of critical theory He identifies in particular three categories of change in the tempo of modern social life technological acceleration evident in transportation communication and production the acceleration of social change reflected in cultural knowledge social institutions and personal relationships and acceleration in the pace of life which happens despite the expectation that technological change should increase an individual's free time According to Rosa both the structural and cultural aspects of our institutions and practices are marked by the shrinking of the present a decreasing time period during which expectations based on past experience reliably match future results and events When this phenomenon combines with technological acceleration and the increasing pace of life time seems to flow ever faster making our relationships to each other and the world fluid and problematic It is as if we are standing on slipping slopes a steep social terrain that is itself in motion and in turn demands faster lives and technology As Rosa deftly shows this self reinforcing feedback loop fundamentally determines the character of modern life
